"ARBOR DAY."

How It Was Celebrated at the East School.

The pupils of the East Salem school have been preparing for "Arbor Day" by cleaning the ground, cultivating the trees and shrubs on the ground, and by planting beds of pansies and violets.

The nature studies of the various grades have been arranged to coincide with the idea of this day, giving the children, not only a knowledge of plant life but inculcating a love for the beautiful and bringing them closer to the heart of nature.

LABOR EXCHANGE.—Mr. B. J. Sharp of Salem, delivered a lecture at the city hall in this city, Monday evening on the subject of "Labor Exchange."

The idea is somewhat novel to those who have never investigated the matter. As nearly as we could comprehend the matter associations are formed in various localities, each of which has a warehouse. When a member deposits a marketable product in this warehouse, a receipt or check issues to him which is good at any of the associate exchanges for their face value in any commodity or product handled by them. The idea is a new one and is worthy of investigation.

Electric Bitters.
Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the liver is torpid and sluggish and a need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50 cents and \$1.00 per bottle at Fred A. Legg's Drug store.

A LABOR CATCH.—The largest lot of clothing ever brought to Salem is the spring stock just imported from the manufacturers by G. W. Johnson & Son.

Its record of cures is unequalled and those cures have often been accomplished after all other preparations had failed.

Hood's Pills cure all liver ills, biliousness, jaundice, sick headache.
